## Declaration

- Non- GMO
- No added chemicals
- THC below 0.2%

Medibis Europe APS declares that the hemp sowing seeds from the EU certified varieties **Monoica**, which is listed on the EU database and sold by our company are not genetically modified. We also confirm that the seeds are without any chemical treatments, therefore they are suitable for organic cultivation.

The THC content of all European certified hemp strains is lower than the required limit of 0.2%. The certificate on the bag attests that the seeds are from an approved variety. Annual spot-checks by the producing farmers secure, that the produced seeds are following the European rules and regulations.

Best Regards,
